Criminal Law, Procedure, and Evidence
Walter P. Signorelli 2017-07-27 Constitutional principles are the foundation upon which substantive criminal law, criminal procedure law, and evidence laws rely. The concepts of due process, legality, specificity, notice, equality, and fairness are intrinsic to these three disciplines, and a firm understanding of their implications is necessary for a thorough comprehension of the

Introduction to Criminal Evidence and Court Procedure
Julian R. Hanley 1999

Criminal Evidence
Matthew Lippman 2015-03-23 A concise and comprehensive introduction to the law of evidence, Criminal Evidence takes an active learning approach to help readers apply evidence law to real-life cases. Bestselling author Matthew Lippman, a professor of criminal law and criminal procedure for over 25 years, creates an engaging and accessible experience for students from a public policy perspective through a multitude of contemporary examples and factual case scenarios that illustrate the application of the law of evidence. Highlighting the theme of a balancing of interests in the law of evidence, readers are asked to apply a more critical examination of the use of evidence in the judicial system. The structure of the criminal justice system and coverage of the criminal investigative process is also introduced to readers.

Criminal Evidence: Jefferson L. Ingram
2014-10-17 In addition to covering the basics of collecting, preserving and presenting evidence, Criminal Evidence, 12th edition, presents the latest developments in the law of evidence that are of interest to criminal justice personnel. Highlights include: chapter outlines, lists of key terms and concepts for each chapter, a glossary, and new, up-to-date cases in Part II. Thoroughly revised, updated, and streamlined to include recent case law on evidence Each chapter includes outlines, key terms and concepts, and review questions to aid understanding Appendices include a helpful glossary; Federal Rules of Evidence as amended and effective through December 1, 2013; Table of Jurisdictions That Have Adopted Some System of Uniform Rules for Regulating the Admission and Exclusion of Evidence through 2014; and Table of Contents of the Uniform Rules of Evidence with 2005 Amendments

Criminal Evidence and Procedure
Alastair N. Brown 2002 This introductory book, designed for all law students, for criminal law practitioners and for those whose work requires them to understand the criminal justice system sets out the essentials of the law of criminal evidence and procedure in a clear and readable form.

Criminal Evidence and Human Rights
Paul Roberts 2012-05-18 Criminal procedure in the common law world is being recast in the image of human rights. The cumulative impact of human rights laws, both international and domestic, presages a revolution in common law procedural traditions. Comprising 16 essays plus the editors'
thematic introduction, this volume explores various aspects of the 'human rights revolution' in criminal evidence and procedure in Australia, Canada, England and Wales, Hong Kong, Malaysia, New Zealand, Northern Ireland, the Republic of Ireland, Singapore, Scotland, South Africa and the USA. The contributors provide expert evaluations of their own domestic law and practice with frequent reference to comparative experiences in other jurisdictions. Some essays focus on specific topics, such as evidence obtained by torture, the presumption of innocence, hearsay, the privilege against self-incrimination, and 'rape shield' laws. Others seek to draw more general lessons about the context of law reform, the epistemic demands of the right to a fair trial, the domestic impact of supranational legal standards (especially the ECHR), and the scope for reimagining common law procedures through the medium of human rights. This edited collection showcases the latest theoretically informed, methodologically astute and doctrinally rigorous scholarship in criminal procedure and evidence, human rights and comparative law, and will be a major addition to the literature in all of these fields.

Criminal Evidence - Paul Roberts 2010-08-26
Based on Adrian Zuckerman's 'The Principles of Criminal Evidence', this book presents a comprehensive treatment of the fundamental principles & underlying logic of the law of criminal evidence. It includes changes relating to presumption of innocence, privilege against self-incrimination, character, & the law of corroboration.

Criminal Evidence - Norman Garland 2014-03-12
The seventh edition of Criminal Evidence presents the basic concepts of criminal evidence applied in the criminal justice environment. The text includes a description of the trial process, types of evidence, the rules relating to relevance, hearsay (including the Confrontation Clause), documentary evidence, qualification of witnesses, privileges, presumptions, judicial notice, photographs, and character. The text also presents the principles relating to the impact of the Constitution of the United States on the admissibility of evidence (i.e. search and seizure, admissions and confessions, the right to counsel, identification procedures), and principles relating to the law enforcement professional as a witness. It is written in a clear, lively, and personal style to appeal to criminal justice professionals and students on the way to becoming professionals.

Criminal Evidence - Judy Hails 2012-12-20
Practical and reader-friendly, the Seventh Edition of CRIMINAL EVIDENCE continues to offer students comprehensive, up-to-date coverage of all evidentiary topics common in criminal proceedings in a brief, affordable format. The text thoroughly explores Constitutional issues essential to the collection and seizure of admissible evidence and legal interrogation, carefully outlining concepts and processes applicable to every state and pointing out where great interstate variation exists or specific state codes may have a strong impact. The text also covers current trends and topics that students will likely encounter in the real world, such as terrorism and homeland security, scientific evidence, Federal Rules of Evidence, hearsay, and the appellate system. Realistic case scenarios prepare students to apply their knowledge and skills in the real world as working law enforcement professionals. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Criminal Evidence: Principles and Cases - Thomas J. Gardner 2015-02-03 CRIMINAL EVIDENCE: PRINCIPLES AND CASES, 9th Edition, delivers the key rules of evidence in criminal matters as well as their interpretations and applications, and is especially useful for students planning a career in law enforcement or law. Comprehensive without being encyclopedic or overwhelming, the text gives students the rationale behind the rules and demonstrates how law enforcement officers apply them on the job. Authors Gardner and Anderson include many of the features that popularized their best-selling CRIMINAL LAW, such as high-interest examples, key concepts boxes, and case excerpts that engage students and make the topics more relevant. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Scottish Criminal Evidence Law-Peter Duff 2018-12-31 Why did Enlightenment happen in Edinburgh?

Criminal Justice Procedure-Stacy C. Moak 2014-09-25 Criminal Justice Procedure gives clear guidance on the most common questions faced by today's law enforcement, offering fresh look at 21st century pre-trial protocol. Unlike other case books, this newly revised edition eschews legal theory in favor of the practical know-how needed to not to parse, but apply criminal law. Emphasis has been placed on just exactly how practitioners should conduct hot-button procedures such as airport and border searches. Moreover, the book also addresses the often dire implications of deviating from proper practice - how a false step can translate into a violation of individual rights, or the inability to successfully prosecute the guilty. This edition has been specifically designed for CJ undergraduate programs (rather than higher-level law schools) and completely reorganized for a more logical flow of topics. Moreover, it is newly focused on the most crucial practical applications of the law in the CJ context. There is also added emphasis on the Fourth, Fifth, and Sixth Amendments.

Criminal Evidence-John L. Worrall 2005 Focuses on the most important aspects of evidence law as it relates to criminal justice. This book covers various areas, such as the forms of evidence, the hearsay rule and its exceptions, examination of witnesses, testimonial privileges, and the concepts of relevancy and materiality.

Criminal Evidence-Derek Regensburger 2019-02-28 With lucid text, four-color illustrations, and abundant examples, Criminal Evidence: From Crime Scene to Courtroom, Second Edition, follows the path of evidence throughout the criminal justice process. Derek Regensburger offers a clear introduction to the principles of evidence and instructions for collecting, preserving, and presenting evidence in a criminal case. Actual trials and news excerpts bring the material to life as they illustrate the role of evidence in real cases. Online videos of mock trial scenes reinforce students' understanding of key concepts covered in the book. New to the Second Edition: Federal Rules of Evidence—updated to reflect the restyling that took place at the end of 2011 Reordered chapters that better accommodate the discussion of terminology and the criminal justice process Discussion of the reliability of forensic evidence has been given its own chapter and updated with the most recent studies and cases, including a 2016 report on the issue authored by the President's Council on Science and Technology Coverage of the authentication of social media posts has been greatly expanded and treated separately Discussion of expert testimony reflects recent changes such as increased acceptance of the Daubert standard for admission Evidence in Action articles have been updated and expanded to feature recent events, including the George Zimmerman trial and the Bill Cosby sexual assault trial New and expanded discussions of preemptory challenges and Kentucky v. Batson; appeal of right, ineffective assistance of counsel, habeas corpus petitions; Biggers factors and eyewitness identifications; subpoena duces tecum; grand jury subpoenas; the validity of hair comparison analysis and bite mark identification; same-sex marriage and spousal privilege; health records of a crime
victim; admissibility of statements made by young children to teachers Professors and students will benefit from: Straightforward text that follows the evidence from collection to trial Accessible three-part organization I. The Collection and Preservation of Evidence II. Pretrial Matters III. Admissibility of Evidence

Four-color photographs and exhibits that illustrate evidentiary concepts Evidence in Action, observed in real trials and news excerpts Practical examples that apply legal concepts through hypothetical scenarios Review questions and application problems at the end of each chapter that test students’ mastery of the material Short mock trial scenes on the companion website that illustrate key concepts discussed in the text

Criminal Procedure in New York: Criminal evidence-Lloyd I. Paperno 1971

A Treatise on Criminal Law and Criminal Procedure-Charles Erehart Chadman 1976

Criminal Evidence-Derek Regensburger 2019-02-28 With lucid text, four-color illustrations, and abundant examples, Criminal Evidence: From Crime Scene to Courtroom, Second Edition, follows the path of evidence throughout the criminal justice process. Derek Regensburger offers a clear introduction to the principles of evidence and instructions for collecting, preserving, and presenting evidence in a criminal case. Actual trials and news excerpts bring the material to life as they illustrate the role of evidence in real cases. Online videos of mock trial scenes reinforce students’ understanding of key concepts covered in the book. The Oxford Handbook of Criminal Process-Darryl K. Brown 2019-02-22 The Oxford Handbook of Criminal Process surveys the topics and issues in the field of criminal process, including the laws, institutions, and practices of the criminal justice administration. The process begins with arrests or with crime investigation such as searches for evidence. It continues through trial or some alternative form of adjudication such as plea bargaining that may lead to conviction and punishment, and it includes post-conviction events such as appeals and various procedures for addressing miscarriages of justice. Across more than 40 chapters, this Handbook provides a descriptive overview of the subject sufficient to serve as a durable reference source, and more importantly to offer contemporary critical or analytical perspectives on those subjects by leading scholars in the field. Topics covered include history, procedure, investigation, prosecution, evidence, adjudication, and appeal.

Criminal Evidence and Procedure-Edward
Criminal Evidence

Criminal Evidence: An Introduction is comprehensive in its treatment of criminal evidence law—covering all necessary areas, such as the forms of evidence, the hearsay rule and its exceptions, examination of witnesses, testimonial privileges, and the concepts of relevancy and materiality. The text also features criminal procedure material, including the exclusionary rule, searches and seizures, interrogations, and pretrial identification procedures. In addition, the book covers the development of evidence law as common law, the Federal Rules of Evidence, and current "hot button" topics in criminal evidence such as DNA evidence. The text's comprehensive approach allows instructors to cover all of the "standard" material, while also adding selections that they consider most interesting and relevant to their particular courses. This textbook is intended for use in either a criminal evidence or criminal procedure class. Before students can fully understand the nuances of criminal evidence, they need to understand the basics of criminal procedure. It is the law of criminal procedure that governs the handling of evidence before it is introduced in court.

Criminal Evidence

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. This book provides college students in Legal Studies, Criminal Justice, and other law or forensic-related fields with a detailed understanding of evidence law. A detailed, hands-on introduction to evidence law Criminal Evidence uses clear writing and real-world examples to provide students with a comprehensive understanding of the laws that determine what make evidence admissible in court, and the factors that make it credible to a jury. Concise but thorough explanations of the legal system, trial processes, and principles of constitutional and criminal law are carefully tailored to provide background on the role of evidence law. Coverage then continues to the rules of evidence and statutory and case law which form the law of evidence in a logical progression, from the attributes which make evidence admissible, to those which make relevant evidence inadmissible. Throughout, practice tips, sample trial transcripts, court opinions, and critical-thinking questions help students develop and retain their understanding. The appendix includes an annotated transcript of testimony taken at an actual criminal trial to give students a look at how evidence law is applied in practice. With its hands-on approach to evidence law, Criminal Evidence clearly explains the law of evidence and the context of that law in a manner that is accessible to students studying criminal justice as well as those studying law.

supplements that may come packaged with the bound book. A comprehensive, cohesive look at criminal evidence, Criminal Evidence provides a comprehensive legal framework of the rules of evidence, highlights key law enforcement issues in the field, and uses current, newsworthy headline cases to illustrate major points and generate student interest. While comprehensive—coverage spans the historical evolution of American jurisprudence from inception to contemporary courts—potentially complicated concepts are presented in a clear, reader-friendly manner. The text is organized to reinforce foundational concepts discussed in introductory courses prior to the presentation of sophisticated legal constructs. The Second Edition is completely updated and significantly expanded with nearly 40% more content than the previous edition, five new pedagogical tools per chapter, and the complete text of the Federal Rules of Evidence, Magna Carta, and the Bill of Rights.

Crime, Procedure and Evidence in a Comparative and International Context-John D Jackson 2008-09-29 This book aims to honour the work of Professor Mirjan Damaška, Sterling Professor of Law at Yale Law School and a prominent authority for many years in the fields of comparative law, procedural law, evidence, international criminal law and Continental legal history. Professor Damaška’s work is renowned for providing new frameworks for understanding different legal traditions. To celebrate the depth and richness of his work and discuss its implications for the future, the editors have brought together an impressive range of leading scholars from different jurisdictions in the fields of comparative law, procedural law, evidence, and criminal law and procedure. Using Professor Damaška’s work as a backdrop, the essays make a substantial contribution to the development of comparative law, procedure and evidence. After an introduction by the editors and a tribute by Harold Koh, Dean of Yale Law School, the book is divided into four parts. The first part considers contemporary trends in national criminal procedure, examining cross-fertilisation and the extent to which these trends are resulting in converging practices across national jurisdictions. The second part explores the epistemological environment of rules of evidence and procedure. The third part analyses human rights standards and the phenomenon of hybridisation in transnational and international criminal law. The final part of the book assesses Professor Damaška’s contribution to comparative law and the challenges faced by comparative law in the twenty first century.

Criminal Evidence and Procedure-Bloomsbury Professional 2002-12 No Marketing Blurb

Criminal Procedure-Matthew Lippman 2018-12-20 This contemporary, comprehensive, case-driven book from award-winning teacher Matthew Lippman covers the constitutional foundation of criminal procedure and includes numerous cases selected for their appeal to today’s students. Organized around the challenge of striking a balance between rights and liberties, Criminal Procedure, Fourth Edition emphasizes diversity and its impact on how laws are enforced. Built-in learning aids, including You Decide scenarios, Legal Equations, and Criminal Procedure in the News features, engage students and help them master key concepts. Fully updated throughout, the Fourth Edition includes today’s most recent legal developments and decisions. Features and Benefits A chapter-opening vignette drawn from a case in the chapter gets students immediately involved in the content that follows. Test Your Knowledge questions at the beginning of each chapter help students activate prior knowledge read with purpose for topics they don’t yet know. Edited cases introduced by clear and accessible descriptions provide students with concrete examples and illustrations and expose them to the actual documents that have shaped the American criminal justice system. Additional edited cases are available on the student study website. Legal Equations offer visual overviews of the laws and concepts discussed in the text. Questions after each case reinforce learning and help students uncover the key points. Criminal Procedure in the News excerpts expose students to contemporary developments in the law through current events. Chapter Summaries and Chapter Review Questions help students prepare for exams. A chapter-ending Legal Terminology section with corresponding Glossary helps students master the vocabulary of the criminal justice system. New to this Edition A number of significant, new U.S. Supreme Court decisions are now cases discussed in the book, such as United States v. Carpenter, which raised important questions around police use of new technology. Other new cases address important
issues including privacy, racial discrimination, and effective assistance of counsel, search and seizure, juries, plea bargaining, the exclusionary rule, pretrial motions, and habeas corpus.

Features. The content includes a new Test Your Knowledge feature and a number of new You Decide and Criminal Procedure in the News features that explore crucial topics such as police use of deadly force, the second amendment and gun control, a defendant’s right to a bail, racial bias in jury deliberations, searches of electronic devices, and much more. Topics. Several new topics have been added or expanded to reflect their growing impact on criminal procedure. These topics include technology and the home, police use of cell-site location information and body cameras, patterns and trends of Terry stops in major cities across the US, individuals being arrested for “Walking While Black,” racial bias in the judiciary, and the impact of the policies of the Trump administration on the use of drones, the detention of undocumented immigrants, and the continued operation of the detention facilities at Guantanamo.

Criminal Evidence - Thomas J. Gardner
2009-02-22 An essential text covering the key rules of evidence in criminal matters, as well their interpretations and applications. Comprehensive without being encyclopedic, this text includes many of the engaging features that popularized Gardner and AndersonÆs best-selling text CRIMINAL LAW.

Looseleaf for Criminal Evidence - Norman M Garland 2019-05-21 The current edition of Criminal Evidence presents the basic concepts of criminal evidence applied in the criminal justice environment. The text includes a description of the trial process, types of evidence, the rules relating to relevance, hearsay (including the Confrontation Clause), documentary evidence, qualification of witnesses, privileges, presumptions, judicial notice, photographs, and character. The text also presents the principles relating to the impact of the Constitution of the United States on the admissibility of evidence (i.e. search and seizure, admissions and confessions, the right to counsel, identification procedures), and principles relating to the law enforcement professional as a witness. It is written in a clear, lively, and personal style to appeal to criminal justice professionals and students on the way to becoming professionals.

Instructors and students can now access their course content through the Connect digital learning platform by purchasing either standalone Connect access or a bundle of print and Connect access. McGraw-Hill Connect® is a subscription-based learning service accessible online through your personal computer or tablet. Choose this option if your instructor will require Connect to be used in the course. Your subscription to Connect includes the following: • SmartBook® - an adaptive digital version of the course textbook that personalizes your reading experience based on how well you are learning the content. • Access to your instructor’s homework assignments, quizzes, syllabus, notes, reminders, and other important files for the course. • Progress dashboards that quickly show how you are performing on your assignments and tips for improvement. • The option to purchase (for a small fee) a print version of the book. This binder-ready, loose-leaf version includes free shipping. Complete system requirements to use Connect can be found here: http://www.mheducation.com/highered/platforms/connect/training-support-students.html

A Treatise on Criminal Law and Criminal Procedure - Charles E B 1873 Chadman 2015-08-12 This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Criminal Evidence - Jefferson L. Ingram
Criminal Evidence is a well-respected and trusted introduction to the rules of criminal evidence for criminal justice students and professionals. The first half of this book follows the Federal Rules of Evidence in its explanation of how evidence is collected, preserved, and presented in criminal court. The second half provides a selection of relevant criminal court cases that reinforce these basics and provide the context of how these rules are currently practiced. Readers will have an understanding of how concepts of evidence operate to convict the guilty and acquit the innocent. Part of the John C. Klotter Justice Administration Legal Series, this twelfth edition provides many updates, new references to recent cases, and a current version of the Federal Rules of Evidence. Student aids include chapter outlines, key terms and concepts lists, a glossary, a table of cases cited, and online interactive case studies. Teacher resources include Instructor's Guide, test bank, and PowerPoint slides. Thoroughly revised, updated, and streamlined to include recent case law on evidence each chapter includes outlines, key terms and concepts, and review questions to aid understanding Appendices include a helpful glossary; Federal Rules of Evidence as amended and effective through December 1, 2013; Table of Jurisdictions That Have Adopted Some System of Uniform Rules for Regulating the Admission and Exclusion of Evidence through 2014; and Table of Contents of the Uniform Rules of Evidence with 2005 Amendments

In Crime's Archive-Katherine Biber 2018-07-04 This book investigates what happens to criminal evidence after the conclusion of legal proceedings. During the criminal trial, evidentiary material is tightly regulated; it is formally regarded as part of the court record, and subject to the rules of evidence and criminal procedure. However, these rules and procedures cannot govern or control this material after proceedings have ended. In its ‘afterlife’, criminal evidence continues to proliferate in cultural contexts. It might be photographic or video evidence, private diaries and correspondence, weapons, physical objects or forensic data, and it arouses the interest of journalists, scholars, curators, writers or artists. Building on a growing cultural interest in criminal archival materials, this book shows how in its afterlife, criminal evidence gives rise to new uses and interpretations, new concepts and questions, many of which are creative and transformative of crime and evidence, and some of which are transgressive, dangerous or insensitive. It takes the judicial principle of open justice – the assumption that justice must be seen to be done – and investigates instances in which we might see too much, too little or from a distorted angle. It centres upon a series of case studies, including those of Lindy Chamberlain and, more recently, Oscar Pistorius, in which criminal evidence has re-appeared outside of the criminal process. Traversing museums, libraries, galleries and other repositories, and drawing on extensive interviews with cultural practitioners and legal professionals, this book probes the legal, ethical, affective and aesthetic implications of the cultural afterlife of evidence.

Test Yourself in Evidence, Civil Procedure, Criminal Procedure and Sentencing-City Law School (London, England) 2007 Providing over 130 challenging multiple-choice questions, together with note-form answers, this book is the ideal revision aid for students on the Bar Vocational Course. Test Yourself allows students to quickly and easily reinforce their knowledge of key principles, procedures and leading cases in the areas of evidence, civil procedure, criminal procedure and sentencing. Offering students the opportunity to practice undertaking multiple-choice questions, which may be similar to those met in assessments, Test Yourself can be used as a tool by students to not only test their knowledge and comprehension of key legal principles, but can also be used to identify any weaknesses in knowledge, indicating areas where further study is required. Answers to all questions are provided at the end of the tests, along with accompanying feedback sections which fully explain the answer to each question, and which also provide useful tips on how to approach such questions in an exam, providing an excellent starting point for further revision.

The Origins of Adversary Criminal Trial-John H. Langbein 2003 The lawyer-dominated adversary system of criminal trial, which now typifies practice in Anglo-American legal systems, developed in England in the eighteenth century. Using hitherto unexplored sources from London’s Old Bailey Court, Professor Langbein shows how and why lawyers were able to capture the trial, and he supplies a path-breaking account of the formation of the law of criminal evidence.
Arguments, Stories and Criminal Evidence
Floris J. Bex 2011-02-15

In this book a theory of reasoning with evidence in the context of criminal cases is developed. The main subject of this study is not the law of evidence but rather the rational process of proof, which involves constructing, testing and justifying scenarios about what happened using evidence and commonsense knowledge. A central theme in the book is the analysis of ones reasoning, so that complex patterns are made more explicit and clear. This analysis uses stories about what happened and arguments to anchor these stories in evidence. Thus the argumentative and the narrative approaches from the research in legal philosophy and legal psychology are combined. Because the book describes its subjects in both an informal and a formal style, it is relevant for scholars in legal philosophy, AI, logic and argumentation theory. The book can also appeal to practitioners in the investigative and legal professions, who are interested in the ways in which they can and should reason with evidence.

Criminal Evidence and Procedure
Edward Ronald Baker 1975

The Internationalisation of Criminal Evidence
John D. Jackson 2012-01-19

An examination of international attempts to develop common principles for regulating criminal evidence across different legal traditions.

Street Legal
Ken Wallentine 2007

This 396-page book provides specific guidance on pre-trial criminal procedure of all sorts, and explains in understandable terms what you can do and what you can't do under 4th Amendment search and seizure law. From traffic checkpoints and forceful felony arrest, from Miranda warnings to inmate and cell searches, it's all covered in this concise reference. In addition, numerous charts and guides are included throughout the book to make this as practical a guide as possible.

Evidence in Criminal Trials
Liz Heffernan 2020-09-24

The law of evidence comprises the rules which govern the presentation of facts and proof in proceedings before a court. It is a subject of enormous importance to both practitioners and students. The principal objective of Evidence in Criminal Trials, 2nd edn, is to update the analysis of Irish law and policy on criminal evidence. Given its nature, the law of evidence is constantly evolving and, in particular, is actively developed by the courts and occasionally the legislature. In the five years since the first edition was published, judicial decisions have been handed down in each of areas covered in the book. This is particularly true of the broad field of Testimony (chapters 2 to 6) and the area of Pre-Trial Interviews with Suspects (chapter 9). Aside from updating the text in this general sense, the second edition will examine a number of landmark developments that have occurred over the past four years. In DPP v JC (2015) IESC 31, the Supreme Court delivered a groundbreaking decision effectively re-writing the law on unlawfully obtained evidence by relaxing the strict exclusionary rule that had been applied by the courts for the previous fifty years. The revised exclusionary rule has been applied in a number of recent cases. In 2017, the Oireachtas substantially amended the legislative regime of special measures for vulnerable witnesses. The Criminal Justice ( Victims of Crime) Act 2017, which transposed the EU Victims' Rights Directive, has extended these measures in principle to crime victims who are at risk of secondary victimisation. It has also enhanced the range of existing measures for children and persons with certain intellectual disabilities who give evidence in trials for violent and/or sexual offences. The combined effect is a substantial amendment of Part 3 of the Criminal Evidence Act 1992. Both the Victims of Crime Act and the Criminal Law (Sexual Offences) Act 2017 have introduced important changes relating to the evidence of complainants in trials for sexual offences. This area of trial practice has been the subject of controversy and various proposals for policy reform have been put forward. In 2016, the Law Reform Commission published its long-awaited Report on Consolidation and Reform of Aspects of the Law of Evidence. The very length report includes recommendations in the areas of expert evidence and the law on hearsay (two significant chapters within the book). It also examines the law relating to documentary evidence and makes proposals for the consolidation of evidence legislation. The second edition will contain a new chapter on the subject of European Criminal Evidence. The central focus is on the Mutual Legal Assistance Act 2008 which provides the framework for the taking of evidence located abroad. It also analyses various measures.
adopted under the auspices of the EU including the EU Directives on the Right of Access to a Lawyer, and on European Investigation Orders (which Ireland has not opted into). The current European Commission proposal for an instrument on European Preservation and Production Orders in relation to electronic evidence is also discussed. Includes references to the relevant case law of the European Court of Human Rights throughout the book. In addition, new material is added to existing chapters. For example, the discussion of the burdens and standards of proof will be extended (chapter 1) and the analysis of privilege (chapter 12).

Similarly, the law on the admissibility of mixed statements will be included in the account of pre-trial interviews with suspects (chapter 9). The analysis of DNA evidence will be revised (chapter 10) by condensing some of the older material on point and including a review of the recent Supreme Court decision in DPP v Wilson (2017) IESC 54.
