Sri Lanka, Human Rights and the United Nations - Thamil Velnan Ananthouyaray. 2019-04-30 This book examines the engagement between the United Nations' human rights machinery and the respective governments since Sri Lanka (then Ceylon) joined the United Nations. Sri Lanka has a long and rich history of engagement with international human rights instruments. However, despite its active membership in the UN, the country's post-colonial trials and tribulations are emblematic of the limited influence the international organisation has exerted on this country in the Global South. Assessing the impact of this international engagement on the country's human rights infrastructure and situation, the book outlines Sri Lanka's colonial and post-colonial development. It then considers the development of a domestic human rights infrastructure in the country. It also examines and analyzes Sri Lanka's engagement with the UN's treaty-based and charter-based human rights bodies, before offering conclusions concerning the impact of said engagement. The book offers an innovative approach to gauging the impact of international human rights instruments, while also taking into account the colonial and post-colonial imperatives that have partly dictated governmental behaviour. By doing so, the book seeks to combine and analyze international human rights law, post-colonial critique, studies on biopower, and critical approaches to international law. It will be a useful resource not only for scholars of international law, but also for practitioners and activists working in this area.

The Rights of Non-citizens - United Nations. Office of the High Commissioner for Human Rights 2006 International human rights law is founded on the premise that all persons, by virtue of their essential humanity, should enjoy all human rights. Exceptional distinctions, for example between citizens and non-citizens, can be made only if they serve a legitimate State objective and are proportional to the achievement of the objective. Non-citizens can include: migrants, refugees and asylum seekers, victims of trafficking, foreign students, temporary visitors and stateless people. This publication looks at the diverse sources of international law and emerging international standards protecting the rights of non-citizens, including international conventions and reports by UN and treaty bodies

Pain, Pride, and Politics - Amarnath Amarasingam 2017-04-24 Pain, Pride, and Politics is an examination of diaspora politics based on a case study of Sri Lankan Tamils in Canada, with particular focus on activism between December 2008 and May 2009. Amarnath Amarasingam analyzes the reactions of diaspora Tamils in Canada at a time when the separatist Tamil movement was being crushed by the Sri Lankan armed forces and reviews currently accepted analytical frameworks regarding to diasporic communities. This book adds to our understanding of a particular diasporic group, while contributing to the theoretical literature in the area. Throughout, Amarasingam argues that transnational diasporic mobilization is at times determined and driven as much by internal organizational and communal developments as by events in their countries of origin. A phenomenon that has received relatively little attention in the scholarly literature, his work provides an in-depth examination of the ways in which a separatist sociopolitical movement beginning in Sri Lanka is carried forward, altered, and adapted by the diaspora and the strategies that are involved in this process.

The Universal Right to Free and Compulsory Education and the Issue of School Dropout or Early School Leaving in Sri Lanka - Indu Ira 2019-11-13 Master's Thesis from the year 2017 in the subject Politics - International Politics - Topic: Public International Law and Human Rights, course: Master of Laws, language: English, abstract: The objective of this study is to recommend suitable legal reforms to overcome the issue of school dropouts in Sri Lanka on the back of the right for education as a universal human right. The research methodology adopted for the study is comparative in nature and desk based. Constructive comparison of the other jurisdiction is the most affirmative method as it serves the objective of this study to recommend suitable legal reforms. This study accordingly recommends that right to education should be guaranteed as a fundamental right and that further legislations have to be established to protect the right. This study has some policy concerns for policymakers, such as recommendation to increase the annual budget allocation on free education programs, and to make, take up the concept of "Every Child Matters" at each and every policy making situation. Chapter one will discuss the background of and significance for compulsory education in Sri Lanka, before the methodology is lined out, closely followed a literature review. In Chapter four, the literature will be extensively discussed and analyzed, before, in a last chapter, final recommendations are given.

Sri Lanka in the Modern Age - Nira Wickramasinghe 2015-03 Sri Lanka in the Modern Age recounts the modern history of the island in an accessible yet unconventional manner. Where other histories have tended to focus on the state's failure to accommodate the needs and demands of minority communities, Wickramasinghe places their claims alongside the political, social and economic demands of other communities, parties, associations and groups, tracing their lineages to the colonial period. This updated second edition carries the book into the present, covering the brutal end of Sri Lanka's civil war and the making of oppressive stability that has grown in its wake. Drawing on recent work as well as on her own research in the field, Wickramasinghe has written above all a history of the people of Sri Lanka rather than a history of the nation-state.

State and Nation in South Asia - Svarupa Rajappalan 2001 What makes a national community out of a state? Addressing this fundamental question, Rajappalan studies national integration from the perspective of three South Asian communities - Tamilians in India, Sindhis in Pakistan, and Tamils in Sri Lanka - that have a history of secessionism in common, but with vastly different outcomes. Rajappalan investigates why integration is relatively successful in some cases (Tamil Nadu), less so in others (Sindh), and disastrous in some (Sri Lanka). Broadly comparative and drawing together multiple aspects of political development and nation building, her imaginative exploration of the tension between state and nation gives voice to relatively disenfranchised sections of society.
