European Family Law Volume III: Jens M. Scherpe 2016-01-29 The Changing Concept of ‘Family’ and Challenges for Domestic Family Law explores the changing concept of ‘family’, with the current social, political, medical and scientific challenges for domestic family law discussed in over 20 European jurisdictions. National reports describe the current law and legal development for ‘horizontal’ (the law of relationships between adults such as marriage, divorce, cohabitation, same-sex relationships), ‘vertical’ (the law governing the relationships between children, such as parentage including artificial reproductive techniques and surrogacy, parental responsibility and adoption) and ‘individual’ (the law of names and recognition of gender identity) family law. They show that, while considerable legal and societal diversity still exists within Europe, family law, in many areas, is developing along similar lines, with a convergence towards a European Family Law. This book, and the others in the set, will serve as an invaluable resource for anyone interested in family law. It will be of particular use to students and scholars of comparative and international family law, as well as family law practitioners.

What is The Family of Law? Alan Brown 2019-02-07 This book argues that the legal understanding of ‘family’ in the UK continues to be underpinned by the idealised image of the ‘nuclear family’, premised upon the traditional, gendered roles of ‘father as breadwinner’ and ‘mother as homemaker’. This examination of the law’s model of the ‘family’ has been prompted by the substantial reforms that have taken place in family law in recent decades, and the significant evolution in social attitudes and familial practices that have happened (in parallel) throughout the book, the influence of the nuclear family is noted in different contexts: various specific legal definitions of ‘family’, the legal regulation of adult, conjugal relationships, the attribution of legal parenthood and the construction of the role of the ‘parent’ within the law. Ultimately, this book argues that while these reforms have resulted in additional categories of relationship coming to be situated within the nuclear family model, there has not, as yet, been any fundamental alteration of the underpinning concept of the nuclear family itself. This book concludes by considering the possibilities offered beyond the ‘nuclear family’, exploring the reconceptualising of the legal understanding of ‘family’ around alternative and potentially ‘radical’ models of ‘family’.
